Bee Dance

The waggle dance tells bees the direction and distance to fly to find more distant food sources. Scout bees use these dances to recruit assistance in collecting food.

The round dance causes bees to look for food a short distance (up to about 50 m) from the hive.

Fun Facts

- ✓ All worker bees are female.
- ✓ A Queen Bee can produce 2,000 eggs a day. Fertilised eggs become females and unfertilised eggs become males, with the help of pheromones.
- ✓ Bees don't want to sting you because they die.
- ✓ There are over 20,000 different species of bee, found on every continent except Antarctica.
- ✓ Bees have been here about 30 million years!
- ✓ Male bees (drones) have bigger eyes to help them find the Queen Bee.
