## FOREWORD

Scientific disposal of Bio-Medical Waste is of prime importance as it involves large scale public health issue. Identification of source of waste will help for its proper collection and disposal. Health Care Facilities are of various categories viz. hospital, clinic, laboratory, blood bank etc. Generation of Bio-Medical Waste is also varied. Inorder to arrive at the accurate quantity and category of Bio-Medical Waste, a comprehensive Inventorization exercise is necessary. Thus this Inventorization of Health Care Facilities and Bio-Medical Waste Management in the U.T. of Puducherry has been prepared. It depicts not only details of HCF, but also quantity of bio-medical waste generation and authorization status. The Inventorization also brings out the gaps that exists in collection and disposal.

I hope this document will be more useful towards effective compliance of the provisions of Bio-Medical Waste Management Rules, 2016.

20.09.2019

(SMITHA. R)  
MEMBER SECRETARY  
PUDUCHERRU POLLUTION CONTROL COMMITTEE

## 1. INTRODUCTION

Puducherry is one of the preferable health destination. There are 9 Medical Colleges including renowned JIPMER, besides 380 Health Care Facilities (HCF) located in the U.T. of Puducherry. Though it gives pride to the U.T, proper disposal of Bio-medical waste (BMW) is a challenging task to the Government. Though the first Bio-medical waste management Rules, 1998 was notified more than two decades ago, scientific mode of Bio-medical waste disposal could not be achieved completely as witnessed in other parts of the country. Revised Bio-medical Waste Management Rules, was notified in the year 2016, which gives more teeth to the implementing authorities. Phasing out of chlorinated bags, adaptation of Bar coding system and fixation of GPS in the vehicle are ensured proper segregation, collection, transportation and disposal of BMW.

As per BMW Rules, 2016, it is the duty of SPCBs and PCCs to prepare an Inventory on Health Care Facilities (HCF) and Biomedical waste management of the State/U.T. In the absence of guidelines for the preparation of the Inventorization, non availability of required data and limited manpower of the SPCB/Committee, it is difficult task for completion of Inventorization within the stipulated time limit.

Hon'ble National Green Tribunal (NGT), Principal Bench, New Delhi intervention in waste management scenario made more streamlining of this task. Hon'ble NGT, in the matter of O.A. No. 710-713 of 2017 directed to complete Inventorization of HCF in all the States in order to assess current scenario in BMW generation and disposal. Thus Inventorization of HCF located in the U.T. of Puducherry has been prepared.

## 2. METHODOLOGY

List of all the Health Care Facilities (HCF) present in the U.T. of Puducherry was obtained from Directorate of Medical Services, Govt. of Puducherry. Operation of these facilities was verified with the list obtained from Central Excise and Service Tax Commissionerate. All the Health Care Facility were directed to apply in Form – I for obtaining Authorization and submit Annual Report in Form – IV. A Public Notice was also issued in the Hindu daily in this regard. Technical officials have inspected all the HCF and verified the accuracy of the information provided by them. Categories wise wastes are sorted out and total quantity has been arrived.

### Central Excise and Service Tax Commissionerate

For the purpose of preparation of present report on Inventoriation of Bio-Medical Waste, colour codes used for segregation of BMW of different categories, as prescribed in BMW Rules' 2016 has been considered for Categorization of Bio-Medical Waste.

**Table 1. Colour Coding Based Waste Category**

Colour Coding	Type of Container	Waste category
Yellow	Plastic Bag	Human Anatomical waste/animal Waste, Microbiology and Biotechnology waste and soiled waste
Red	Disinfected container/ Plastic bag	Tubing, Bottles, Syringes and Bags
Blue	Cardboard Boxes	Broken Glassware
White (or) Translucent	Plastic Bag/ Puncture – Proof containers	Waste sharps, solid waste

### 3. HEALTH CARE FACILITIES

387 Health Care Facilities are present in the U.T. of Puducherry. Among them 86 are bedded and 301 are non-bedded. Details are given Table – 2.

**Table 2: Details of Health Care Facilities**

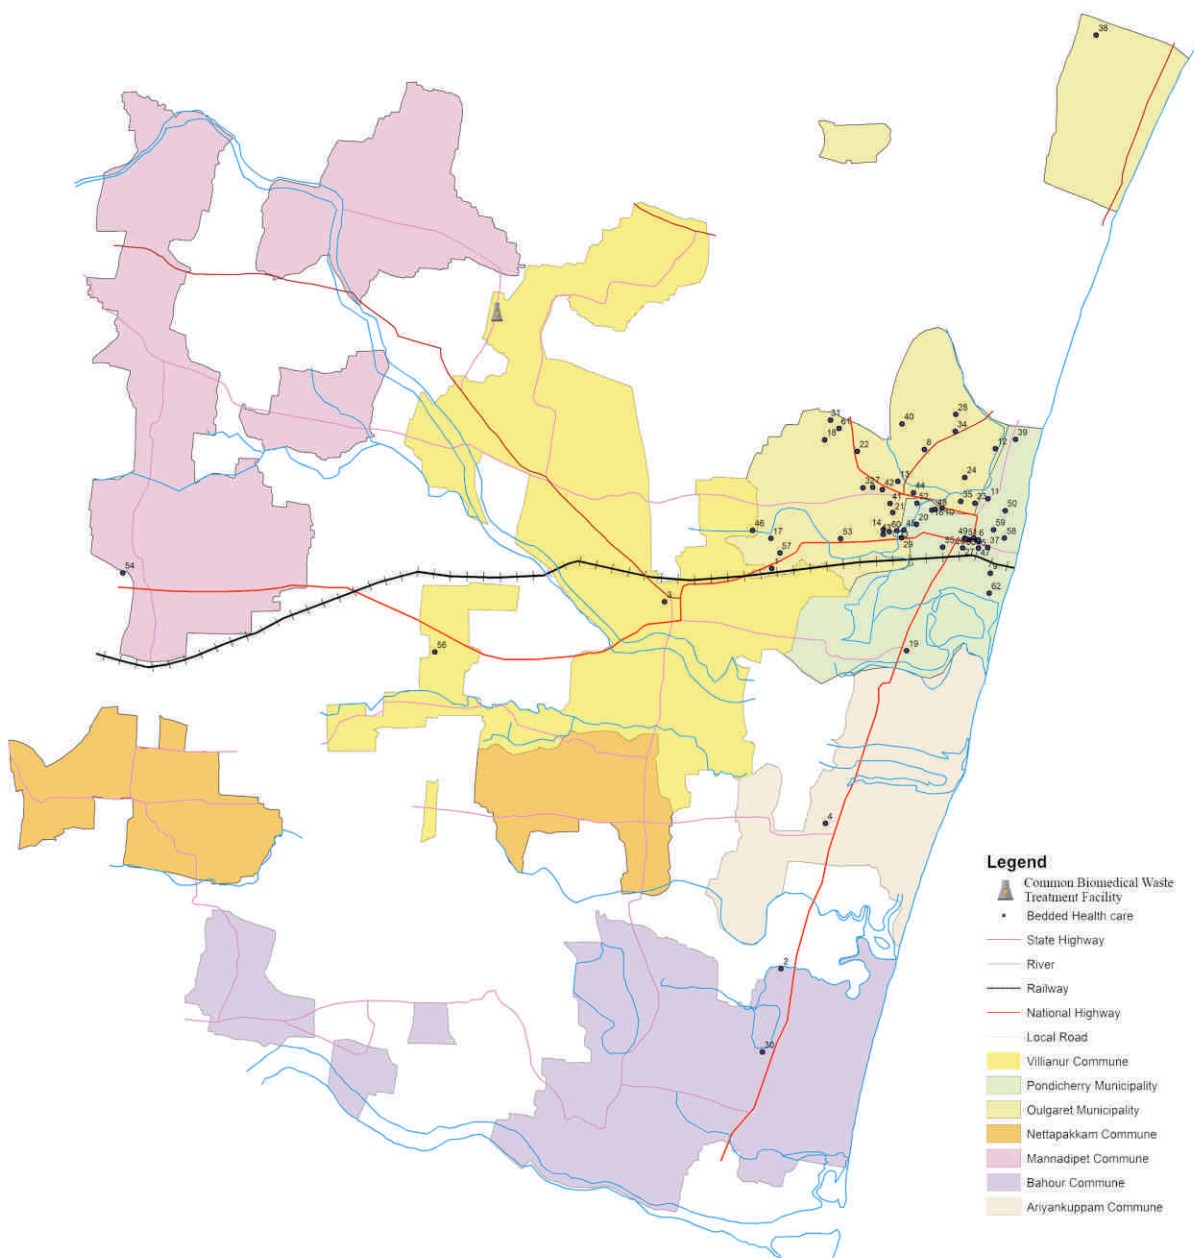

Total No. of HCFs	387
No. of bedded HCFs	86
No. of non-bedded HCFs	301
Clinics, dispensaries	25
Veterinary institutions	1
Animal houses & dispensaries	17
Pathological laboratories	213
Blood bank	3
Clinical establishment	14
Research Institutions	4
Ayush	24
<b>Total No. of Beds</b>	<b>12112</b>

Location of Bedded Health Care Facilities is given in Fig.1.

### 4. AUTHORISATION DETAILS

171 HCF were given Authorisation under BMW Rules, 2016. List of HCF who have obtained authorisation is given in Table. 3, & 4. List of HCF yet to obtained authorisation in Puducherry is given in Table 5 and in Karaikal Region is given in Table 6.

## 5. BIO-MEDICAL WASTE MANAGEMENT SCENARIO

Total Bio-medical waste generation in the U. T. Of Puducherry is estimated as 5.24 TPD. 4.9 TPD of BMW is generated from bedded HCF and 0.32 TPD of waste is generated from non-bedded HCF. Details of Bio-medicated waste generated in Bedded HCF is given in Table 7 and in Non Bedded HCF is given in Table 8. One HCF is having captive biomedical waste treatment and disposal facility in General Hospital, Mahe which are involved in treatment and disposal of 28.6 Kgs /day bio-medical waste. One Common Bio-Medical Waste Treatment Facilities (CBWTF) is operating in Puducherry Region and treating and disposing the Bio-Medical Waste generated in Puducherry and Karaikal region.

**Table 7: Details of Category wise Bio-Medical Waste Generation in bedded HCF**

Sl.No	Name of the HCF	White	Red	Yellow	Blue
		Quantity in Kg/day			
1	M/s. A.G. Padmavati's Hospital Ltd.,	0.50	10.50	24.00	3.50

## 6. COMMON BIO-MEDICAL WASTE TREATMENT FACILITY

**Name of the unit:** M/s Pondicherry Solid Waste Management Company Private Ltd., Thuthipet

**Location :** R.S. No. 79/5 & 80/2, Rajeev Gandhi Land Mark, Thuthipet Village, Villianur Commune, Puducherry.

This CBMWTF facility is located in an industrial area of 20 Kms away from the Puducherry city. This facility is having 3.40 acres of land with built up area of 1.5 acres with internal roads, drainage facility, Bore well and sufficient Green belt.

### Incinerator

The unit has an incinerator of capacity of 200 Kg/hour and operating for two shifts per day (8 hours per shift) with 30 meters chimney. The chimney is connected to the Air Pollution Control devices viz. cyclone separator and wet scrubber. The stack dia is 0.60 m with volumetric flow is 1,800 m<sup>3</sup>/hr. The incinerator is having two chambers viz. primary and secondary chambers with  $850 \pm 50$  C and  $1050 \pm 50$  C temperature is maintained respectively. The incinerated ash is removed from the ash chamber and disposed in secured land filling area.

**Fig.2. Common Bio Medical Treatment Facility**

### Autoclave

The unit has installed an autoclave for disinfection of waste material with capacity 400 Kg/hr and operating for two shifts per day (8 hours per shift). This is horizontal type of autoclave and minimum 121 C with 15 psi pressure is maintained. Along with this a non-IBR boiler has been installed for steam generation with a capacity of 500 Kg/hr.

### Shredder

A Shredder with a capacity of 400 kg/hr has installed for shredding the disinfected plastic material.

**Compactor**

The compactor is installed for compacting the shredded plastic material which will reduce the quantity.

**Effluent Treatment Plant**

The unit has constructed an Effluent Treatment Plant (ETP) for treating the bleed from the Wet scrubber, the wash water from the waste receiving yard and workers conveniences and leachate from the secured landfill for 10 KLD capacity. The ETP is having the screening chamber, collection –cum-equalization tank, extended aeration tank, secondary clarifier and sludge drying beds. The treated water is allowed to pass through the pressure sand filter and activated carbon filter. The treated water is further be treated in RO plant for complete recycling.

**DG Set**

A DG set for 40 KVA capacity had been installed as standby to meet the power shutdown.

Apart from the above, this unit is having a small laboratory to monitor the air emissions and water discharge. The unit has developed a greenbelt.

### Waste Carrying Vehicles

This unit is having five dedicated vehicles for transport of BMW from various places as specified in Schedule – IV, are as follows:

Tata ace- PY 01 AD 8724  
 Tata ace- PY 01 BS 2194  
 Tata ace- PY 01 CB 5116  
 Tata Super ace- PY 01 BU 7672  
 Tata Super ace- PY 01 CE 3492

- Four vehicles are fixed with **GPS**
- Online Continuous Monitoring System has been installed
- Consent under Water and Air Act is valid upto 31.03.2021.
- Bar Coding System has been initiated in 3 major Hospital cum Medical Colleges
- Bank Guarantee of Rs.2 lakhs submitted by the CBMWTF was forfeited for not meeting the emission standard of incineration .

### 7. PENAL ACTION TAKEN BY PPCC ON VIOLATORS

- PPCC has filed 3 cases under Section 19 of Environment (Protection) Act, 1986 before Judicial Magistrate, Puducherry against the following Medical Colleges and Hospitals for violation of Bio-medical Waste (Management & Handling) Rules, 1998.

M/s. Mahatma Gandhi Medical College & Research Institute

M/s. Arupadai Veedu Medical College & Hospital and

M/s.AG Padmavathi's Hospital.

- Rs. 2.0 lakhs was forfeited from CBMWTF for non-compliance of emission standard of Bio-medical Waste Management Rules, 2016.
- Public Complaints have been received against M/s. Aarupadai Veedu Medical College & Hospital for discharge of untreated waste water into adjacent irrigation canal. PPCC officials conducted periodical surprise inspections and

collected water sample from the Effluent Treatment Plant of the hospital. Considering continuous violation of Medical College in exercise of power conferred under Section 5 of Environment (Protection) Act, 1986 directed Superintendent Engineer, of Electricity Department to disconnect the power supply of the medical college, excluding hospital activities. After stoppage of discharge in the canal and initiation of up gradation of Effluent Treatment Plant, power supply was restored.

**RAJIV GANDHI GOVERNMENT WOMEN AND CHILDREN'S HOSPITAL, PUDUCHERRY**
