

Our Irreplaceable Mother

From the time of our birth,
We are being loved by mother Earth.
She has provided us with space to live in,
Good food to eat and fresh air to breathe in.

But what are we giving her back in return?
Are all her love and care been forgotten?
We are poaching animals for their bones and skins.
One or the other day, we will have to pay for our sins.

The ice caps of the poles are already melting down.
In a couple of years, our cities will start to drown.
The floodwaters will find their way into our clumsy cities.
The calamitous cyclones will even uproot the gargantuan trees.

We are turning the rivers into toxic streams!
Our children! We are shattering their dreams!
The fiendish factories are billowing smoke into the sky!
These harmful emissions are causing many people to die!

Nature conservation is now the need of the hour.
Let mother Earth bloom back into a beautiful flower.
There's no one, who can restore a mother's place,
Remember, there's only one mother Earth in the entire space.

II PRIZE – S. SUGANTHI, Mettupalayam, Puducherry

ONLY ONE EARTH! SAVE IT!

Deep in the darkness of the space,
Floats our home in a steady pace.
A small jerk will destroy us !
Even though she bears all our madness.

Mother earth selected the humanity,
To be the superiority
So that, we would protect her
And save all the species forever.

But we took her for granted!
Destroying all the trees planted
Like a spoilt rich child
We exploit her wealth, like we have gone wild!

Can we hurt our own mother?
Please don't harm her further
For now she is heated up,
We have no back up.

Drastic climate changes are the signs!
She shows her anger and whines
It is a lonely blue planet,
On which, our life is purely a lucky shot.

don't change her blue to grey
Live your life in a natural way,
For she is the only one
And it is not fun!!

III PRIZE – GNANARAJA SOUNDARI, Reddiyarpalayam, Puducherry

← . EARTH . →

Mother Earth, Our Mother Earth!
She is the one who gives our birth,
The fresh air, mountains and hills,
All are one by one getting killed.

Mother Earth, Our Mother Earth!
No one understands its worth,
People work with a lot of zeal,
Only to make money for their.

Mother Earth, Our Mother Earth!
Oh! Stop filling it with dirt,
We are destroying it one after,
Save, Save Our Mother Earth!
